Words

Words are the building blocks of communication.
 They are the tools we use to express our thoughts and feelings.
 They are the keys that unlock the world around us.
 They are the threads that weave the fabric of our lives.
 They are the power that can change the world.

How to define success in life?

The only person that can answer the question above is you. I am neither able nor willing to prescribe the **ultimate definition of success**, as this is not possible. Every person is thinking differently about being prosperous in life and is defining success in another way, so there can't exist a definition that is suitable for all. It is very important that you know exactly how to define success in life! Make yourself aware what accomplishment, success and **prosperity** in general means to
